CHAMPION MANIFESTO /

Within everyone of us is a champion : an advocate for a cause we believe is just, worthy, or of importance.

We have the ability to voice these ideals.

We have the ability to live these ideals through action.

Through our voice and our actions, we shape the environment around us to reflect our personal vision and beliefs.

This act of externalization creates meaning in our lives and gives our self a sense of purpose.

We affect, connect, and invest in our environment.

Our actions are the strongest mechanisms for positive change.

Our voice shares our positive story, our vision and inspires others.

Individually, we excel. Together, we rise.

Champions in each of us. Champions we become.

BE A CHAMPION.
